# Get Awesome Wi-Fi With

ARISTA + **ekahau** WIRELESS DESIGN

Get a **high-performing** network with the right number of access points in the right locations, **save countless hours** in Arista CloudVision CUE setup, and **simplify** ongoing troubleshooting and optimization.

Arista Networks + Ekahau

Powerful Tools That Make It Easy to Have Great Wi-Fi

Easily Collect Wi-Fi Data
A simple walk with the Ekahau Sidekick 2 enables anyone to collect the world's most accurate Wi-Fi data, even without a floor plan.

Optimize Your Network
Ekahau Optimizer turns Sidekick 2 data into easy configuration changes you can implement in minutes.

Stay Ahead of Changes
Perform regular health checks with the Sidekick 2 to visualize network issues like low coverage, sources of interference, connectivity issues and more.

Full Support for Arista Products
No matter the Wi-Fi environment or requirements, Ekahau lets you design the highest-performing wireless networks using Arista APs.

Get an AI-Assisted Wi-Fi Design in Minutes
Define your physical environment, select your network requirements and access points, and get a fast and reliable Wi-Fi design in minutes.

Simulate Wi-Fi Upgrades
See how your network would perform with different AP models, including upgrades to 6 GHz access points.

"Ekahau's automatic floor plan and access point provisioning maps all Arista AP locations using Ekahau design project files, *simplifying Wi-Fi access point identification and management.*"

Ed Chapman, Vice President, Business Development & Alliances for Arista

Arista + Ekahau Saves You Time and Money

### Instantly Provision All of Your Arista APs

Just import your Ekahau predictive design into CloudVision CUE. The integration does the heavy lifting, saving you hours and days of tedious drag-and-drop and eliminating manual data entry errors.

Optimize Your Network in Seconds

Once provisioned, use Optimizer to evaluate your unique network and get instant and actionable recommendations for improving your Wi-Fi. Follow the step-by-step instructions to deploy instant Wi-Fi optimizations.

A Powerhouse Combo for Ongoing Health Checks

The Sidekick 2 provides an outside-in view of network performance, which combined with CloudVision CUE means less troubleshooting time and fewer network outages — resulting in more time and money for other priority projects!

Arista Cognitive Wi-Fi

Simple, Available, Secure

Unmatched Visibility

Gain full visibility of the entire wireless network to efficiently manage and maintain the network.

- Rich telemetry data for finding root cause of any issues
- Multi-function radios in access points
- Patented AI/ML driven App Quality of Experience

Scalable & Flexible Wireless Architecture

Easily expand your network to meet growing user and data throughput demands.

- Seamless and limitless scaling
- No single points of failure
- Flexible data path options

Secure Wi-Fi Networking

Built on a Zero Trust architecture and includes a full suite of security capabilities.

- Integrated Wireless Intrusion Prevention System
- Secure BYOD policy enforcement
- Zero Trust Networking
